INFORMATION REPORT

CD NO.

COUNTRY East Germany DATE DISTR. 15 September 1953
 SUBJECT Tire Production at VEB Reifenwerk, Fuerstenwalde NO. OF PAGES 2

NO. OF ENCL. [REDACTED]

LISTED BELOW

SUPPLEMENT TO
REPORT NO.

25X1C

25X1X

THIS DOCUMENT CONTAINS INFORMATION RELATING TO THE INTERNAL SECURITY OF THE UNITED STATES WITHIN THE MEANING OF THE ECONOMIC SPY ACT OF 1940, AS AMENDED. FOR DISSEMINATION OR DISCLOSURE OF THIS INFORMATION IN ANY CHANNEL TO ANYONE NOT AUTHORIZED THEREFOR PURSUANT TO LAW, REPRODUCTION OF THIS FOLIO IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

1. Up to 1960, a considerable capacity expansion is scheduled for the Reifen Werk Fuerstenwalde VEB, in Fuerstenwalde on the Spree River, which is producing cross-country tires with special profiles, by processing Soviet natural caoutchouc. *1 and 2*
2. The capacity of the Gummiwerk VEF in Riesa, Saxony, the total production of which approximately corresponds to that of the Reifenwerk Fuerstenwalde, is also scheduled to be considerably increased up to 1960. No information could be obtained on the production because of changes of the production and increase of the planned quotas.

25X1A

1. [REDACTED] Comment. For a summary of the 1953 economy plan for the Reifenwerk VEF, see Annex. The capacity depends on the calenders available; these operate in three shifts. In mid-1953, two further large-type calenders are scheduled to be mounted. An increase of about 50 percent of the production was scheduled for early 1953.

25X1A

2. [REDACTED] Comment. The plan figures of the annex for Reifenwerk Fuerstenwalde check with a previous report containing plan figures for the first quarter of 1953. The natural caoutchouc delivered by the USSR is processed only in addition to Buna caoutchouc.
